SM Steve Mandes

68 Chester Circle Apt. 2A, New Brunswick, NJ 08901 | Tel: 908.420.3621   Email: mandessteve@gmail.com

Objective

Continue mastering my skillset within the field of Web Development and to be able to apply that knowledge to assist corporations and businesses grow.

Projects

Web Developer (Temporary)
Rutgers University, Division of Student Affairs - Marketing and Communications, New Brunswick NJ
12/2015 – 12/2017
- Designed, developed and maintained over 50 divisional associated websites utilizing WordPress, the adobe creative suite and backend software.
- Communicated with IT in order to update WordPress and other backend technologies to ensure websites ran at optimal performance.
- Trained assistant directors and staff personnel in maintaining basic content on their department's websites.
- Collaborate with assistant directors within the division on web project campaigns.
- Trained student web interns and got them involved with projects through completion.
- Developed web standard guidelines so that consistency was met across Student Affairs websites.
- Researched and analyzed the latest web trends to ensure accessibility and user experience were up to par with other comparable websites.

Front-end Web Developer (Freelance, Remote)
Education Dynamics, Hoboken NJ
12/2015 – Present
- Assist with the design and development of direct marking landing page websites and html email campaigns.
- Revamp dated websites to meet current web standards and best practices.
- Utilize responsive design to create an engaging user experience across mobile devices.

Web Master
Stevens Institute of Technology, Hoboken NJ
08/2012 – 02/2015
- Maintained and updated the University's campus store ecommerce website.
- Redesigned the website to replicate the University's branding and web standards.
- Edited photos of products within Photoshop and designed campaigns ads in Illustrator.
- Created a social media presence to boost sales and traffic to the website.
- Trained student interns who had an interest in learning design for the web and print.
